Portfolio: cvilla.space

Location: Richmond BC, Canada

Phone: (604) 362-8465

PROFILE

Excellent troubleshooting skills with the ability to analyze code to produce the most cost-effective solutions. Self-starter and problem solver with a strong knowledge of functional, procedural and object-oriented programming.

EXPERIENCE

Richmond, BC

September 2017 - Present

Front End Web and iOS Developer

Roomia Realty Inc.

- Migrate form handling to redux-form to facilitate validations, refactoring and reduce time spent on managing state.
- Reduce average page load time by 60% by configuring webpack to code-split javascript bundle.
- Implement 3rd party libraries and API to integrate graphs, geocoding, maps, S3 and civic address lookup.
- Use Jira to manage tasks and resolve tickets concerning bugs and feature improvements.
- Re-design and maintain companion app for the iOS using XCode, Swift and Realm.
- Provide mentorship to junior developers on best practices and good coding standards.
